Breaking New Zealand News

Clark dismisses latest attack on economy

09.10.2000 16:25

Prime Minister Helen Clark is dismissing the latest full-page newspaper advertisement critical of the Government as yet another attempt to talk down the economy.

Texas-based New Zealand businessman, John Carr has published an open letter to Miss Clark in the New Zealand Herald today.

He criticises the government's leadership over the falling dollar and calls for a change in attitude to stop the so- called brain-drain.

But Miss Clark says most of what Mr Carr complains about is irrelevant and out of her control.
